		Doctoring Streamer																																																			
		Doctoring Streamer continues throughout the year (PAC, Continuity Clinic, Peer and Self Assessment)																																																			
		Doctoring in Y2 reiterates and builds on Y1 knowledge and skills (with switch in focus to abnormal history and physical findings), Geriatrics and Genetics																																																			
2) Each streamer topic is represented on the Y2CC by an individual to ensure integration into the vertical segments																																																					
3) Doctoring and other clinical experiences may be partially delinked from the progression of the segment:																																																					
4) Horizontal streamer topics will be integrated into the segments and include: a) Evidence-based medicine, epidemiology, preventive medicine, and public and population health; b) Genetics; c) Neoplasia; d) Infection (Microbiology, Immunology, Pharmacology)
